The Cycle of Civilizations

Students will watch the Youtube video clip entitled "The Cycle of Civilization in 33 Words".

Then in pairs students will be given a card with the name of one of the civilizations discussed in Unit 1, and will choose 4-5 words from the video,

Students will then create a collage with the app of their choice (pic-collage, etc.) using images from that civilization that represent each word.

Once your collage is complete, students will meet up with another group to explain why they chose their images and how it represents that word for that civilization.

We will then come together as a class to discuss the outcomes.
